PROFESSIONAL SUMMARY

Business operations and IT professional with 13+ years of experience across enterprise systems, healthcare administration, analytics, and cross-functional project delivery. Combines hands-on troubleshooting, SQL analysis, UAT, reporting, payer operations, and administrative support with experience leading implementations and improving processes. M.S. in Business Analytics. Comfortable contributing as an individual contributor, specialist, coordinator, or manager.

SELECTED RESULTS

- Reduced open audit findings approximately 75% (80+ to ~20) in six months through root-cause analysis, SOP redesign, and corrective-action tracking.
- Built five executive KPI dashboards for admissions, utilization, outcomes, payer mix, and revenue, introducing centralized leadership reporting.
- Led on-time Kipu EMR and Relias LMS implementation; validated legacy data, executed 15–20 UAT scenarios, and trained 20 staff.
- Supported ~95% on-time activation across 5–6 concurrent national retail campaigns; resolved technical and operational delivery issues.

CORE SKILLS

IT & Business Systems: SQL Server analysis, production support, business requirements, UAT, release validation, system implementations, Microsoft 365, Salesforce CRM, Oracle CRM

Operations & Healthcare: Provider credentialing, payer enrollment, eligibility verification, prior authorizations, intake workflows, onboarding, payroll coordination, vendor support

Reporting & Analytics: Advanced Excel, Power BI / Power Query, Google Sheets, KPI dashboards, data validation, operational reporting, trend analysis

Project & Process Support: Project coordination, process mapping, SOP documentation, user training, change management, Google Apps Script automation

Compliance & Leadership: Audit readiness, corrective actions, HIPAA, 42 CFR Part 2, Joint Commission, CARF planning, staff supervision

PROFESSIONAL EXPERIENCE

Business Operations & Compliance Manager — Freshly Renewed Transitional | 01/2024–07/2026

Outpatient substance use treatment provider (OP, IOP, PHP) | Single site, ~25 employees

- Led remediation of state licensing, accreditation, and payer findings; reduced open audit findings ~75% through process redesign and corrective-action governance.
- Created five Excel, Power BI, and Google Sheets dashboards covering admissions, utilization, payer mix, length of stay, client outcomes, and revenue for leadership and board reporting.
- Coordinated Kipu EMR and Relias LMS implementation from requirements and data cleanup through UAT, staff training, go-live, and stabilization.
- Performed and supervised credentialing, payer enrollment, eligibility checks, prior/continued stay authorizations, intake, onboarding, and payroll coordination; supervised 4–5 administrative staff.

- Supported claims/payment reconciliation and A/R review with billing specialist; assisted budget planning and payer contract updates for new residential program.
- Automated coverage-date, testing, and PTO tracking using Google Apps Script, saving ~3–5 staff hours weekly; digitized client and employee forms.
- Served as IT lead for ~20-user Microsoft 365 migration, vendor selection, and business phone-system coordination.

Business Operations & Systems Consultant — Inspire Therapeutic Services, LLC | 12/2022–Present

Contract, as needed | Outpatient behavioral health and substance use treatment practice

- Developed CARF accreditation roadmap, business and strategic plans (2026–2029), planning charter, and operating procedures for practice launch.
- Built reimbursement-based break-even model and operational dashboards for staffing, capacity, referrals, payer mix, and revenue planning.
- Coordinated payer enrollment, provider credentialing, Medicaid affiliations, intake workflows, and revenue-cycle readiness; partnered with billing specialist on claims and revenue monitoring.

Campaign Specialist — Vestcom, an Avery Dennison Company | 01/2021–05/2023

Client implementation and project delivery | Retail and consumer packaged goods

- Coordinated 5–6 simultaneous retail campaigns across Sales, IT, Programming, Production, and Creative Operations; achieved ~95% on-time store activation.
- Performed creative asset and coding quality checks, catching issues in ~5% of assets before deployment; tracked delivery risks and resolved activation defects.

IT Analyst — Vestcom, an Avery Dennison Company | 06/2012–01/2021

Business systems analysis, production support, and user acceptance testing

- Documented requirements, user stories, test plans, and process maps for approximately 6–7 production releases annually; coordinated UAT, regression validation, and sign-off.
- Investigated client production incidents using SQL Server and code research; isolated application defects versus client-data issues and coordinated fixes.
- Maintained documentation, control testing, and approvals supporting SOX-controlled processes.

EDUCATION

M.S., Applied Digital Technology – Business Analytics | Arkansas State University | 2025

B.B.A., Management Information Systems | University of Arkansas at Little Rock | 2012
